College Success Skills - 3 credit hours (Semester 1)

A course designed to teach students the behaviors consistent with success in academic settings. Opportunity is provided via lecture, individual and group activities, and tests for learning and practicing effective ways of coping with the demands of college life. Topics include note and test-taking strategies, active listening skills, reading strategies, mnemonics, proper management of time and money, goal setting, awareness of resources, and positive attitude development. This course may not be used for social science credit.

Career Development- 3 credit hours (Semester 2)

A course designed to aid the college student in career planning. Areas of opportunity in the employment market, as well as appropriate educational programs in preparing for those employment areas, are discussed. Modern techniques and standardized testing are utilized in assisting the student in personal career choice. Students will be involved in activities that provide opportunities for exploration and practice in job seeking techniques, resume writing, life and career choices and interviewing skills. This course may not be used for social science credit.

Student Insight

This Collegiate High School course has taught me so many skills not only for school, but for the "real world". Personally, it has helped me come out of my shell and deal with stress better. It teaches skills to better prepare for college and to even prepare for obstacles in high school. I'd completely recommend this program to anyone who is willing to put in effort to learn life-long skills. – M.H.
