## Ponte Vedra High School to Offer AP Capstone Diploma Program

### **Diploma program focuses on college-level research, collaboration, and presentation skills crucial for college and career success**

Ponte Vedra, Florida—Ponte Vedra High School is one of approximately 2,000 schools worldwide to implement the [AP Capstone Diploma™ program](#)—an innovative program that encourages students to develop skills for college and career success, including critical thinking, research, collaboration, and communication. The program consists of two yearlong courses taken in sequence: AP® Seminar and AP Research.

Students who score a 3 or higher in AP Seminar and AP Research and on 4 additional AP Exams of their choosing earn the AP Capstone Diploma. This signifies outstanding academic achievement and attainment of college-level academic and research skills. Students who score a 3 or higher in both AP Seminar and AP Research (and not on 4 additional AP Exams) earn the AP Seminar and Research Certificate™.

Ponte Vedra High School will start offering AP Seminar in the fall of 2022.

*PVHS's depth of Advanced Placement course offerings directly align with the AP Capstone diploma criteria. Our district has provided initiatives implementing a goal for graduates of SJCS D to leave high school- college and career ready. PVHS students participating in the AP Capstone program will achieve that goal. The depth of knowledge, writing skills, research methods, analytical skills and ability to build an argument that PVHS students obtain through the two years yields a student that is more college ready.*

In AP Seminar, typically taken in 10th or 11th grade, students choose real-world topics and evaluate them from multiple perspectives. Students identify credibility and bias in sources and develop arguments in support of a recommendation.

In the subsequent AP Research course, students design and execute a college-level research project on a topic of personal interest. Students receive firsthand experience in writing a research question, executing an appropriate method, analyzing data, presenting their results, and defending their findings.

Both AP Capstone™ courses are project based, and students are required to deliver written arguments, collaborate in teams, and deliver professional multimedia presentations as part of their AP Exams.

“The AP Capstone courses enable students to explore real-world issues in great depth through research and collaboration,” said Rushi Sheth, executive director of the AP Capstone Diploma program. He adds, “This provides terrific opportunities for students to write and present their work effectively, both individually and in teams—the very skills professors and employers are demanding.”

In partnership with the higher education community, College Board developed AP Capstone so students can practice and master skills that serve them well in college and career.

“We’re excited more schools are offering the AP Capstone Diploma program,” said Kedra Ishop, vice president for enrollment management at the University of Southern California. “We believe the research, collaboration, and presentation skills taught in the two courses will be valuable to students throughout their academic and professional careers.”

## **About College Board**

College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world’s leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success—including the SAT<sup>®</sup>, the Advanced Placement<sup>®</sup> Program, and BigFuture<sup>™</sup>. The organization also serves the education community through research and advocacy on behalf of students, educators, and schools. For further information, visit [collegeboard.org](https://collegeboard.org).

## **AP Equity and Access Policy**

College Board strongly encourages educators to make equitable access a guiding principle for their AP<sup>®</sup> programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial, and socioeconomic groups that have been traditionally underrepresented. Schools should make every effort to ensure their AP classes reflect the diversity of their student population. College Board also believes that all students should have access to academically challenging coursework before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved.
