

Help choose the books on our shelves.

Join the School Media Advisory Committee — a small group of volunteers who support our library and have a voice in the materials students see on the shelves.

Open to **faculty, staff, parents, and community stakeholders** — parent and community volunteers do not need to work for the district. This is your chance to support your school library and be part of decisions about the books it holds.

01

Shape the collection

Weigh in on new titles and help the collection reflect the needs of our whole school community.

02

Support library programs

Lend a hand with reading initiatives, book fairs, and other media center programming.

03

Be a trusted voice

Serve as a sounding board for the community when questions arise about materials on our shelves.
